The object of this Association shall be the protection of the mutual interests of the different colleges which comprise the Association, and the advancement and improvement of Amateur Athletic Sports among colleges.

ARTICLE III

The membership of this Association shall be limited to colleges of good and regular standing ; and any associate college not sending to the Secretary of the Association, before the annual meeting, evidence of at least one athletic meeting held under I. C. A. A. A. A. rules during the preceding college year, shall pay a fine of twenty-five dollars, and in default of such payment, such college shall forfeit its membership.

Any associate college that is not represented during two con-

secutive years at the annual field meeting by at least three men shall forfeit its membership.

ARTICLE V

OBLIGATION OF MEMBERSHIP

Each associate college agrees to accept the rules of this Association.

GOVERNMENT

This Association shall be an independent organization, governed entirely by its own Constitution and Laws of Athletics, and any member holding games under other rules shall be expelled from the I. C. A. A. A. A.

The management of this Association shall be entrusted to an Executive Committee, consisting of four members and the President (ex-officio), who shall be undergraduates at the time of election. They shall be elected for a term of one year, and no college shall have more than one representative on the Executive Committee. Vacancies in office, other than that of President, and in the membership of the Executive Committee, arising from any cause whatever, shall be filled by an undergraduate appointed by the college of which said student was a member at the time of election. In case of a vacancy in the office of President, the college that the last incumbent represented shall immediately appoint an undergraduate as a representative to the Executive Committee. The Secretary of the Association shall, thereupon, call a meeting of the Executive Committee,

which shall elect from among its members a new President. The Secretary of the Association shall attend all meetings of the Executive Committee, but have no vote.

The annual field meeting shall be held on the afternoon of the last Saturday in May, in each year ; but the preliminary heats of the

100 yards and 220 yards, and quarter-mile runs, the 120 and 220 yards hurdle races, and the half-mile run (when in the opinion of the referee the number of entries shall render it necessary), shall be run on the previous Friday afternoon, continuing until there is left to be run on Saturday afternoon only the semi-final and final heats in the 100 yards and 220 yards runs, and the 120 yards and 220 yards hurdle races, and only the final in the quarter-mile (in which there shall be not more than nine starters), and in the half-mile runs. The field events shall be started on Friday afternoon; on that afternoon each man in the weights and broad jump shall be allowed three trials. On Saturday afternoon the best five competitors in each field event shall be allowed to compete; on that afternoon the competitors in the weights and broad jump shall be allowed three trials, and the best four competitors of the two afternoons, three additional trials. The best performance of the two afternoons, other than in the pole vault and high jump, shall decide the contest in each field event, but in the pole vault and high jump the contest shall be alone decided by the contest of Saturday.

ARTICLE XII

ARTICLE XVI

AMATEUR DEFINITION

An amateur is a person who has never competed in an open competition, or for money, or under a false name ; or with a professional for a prize ; or with a professional where gate money is charged ; nor has ever at any time taught, pursued or assisted at athletic exercises for money, or for any valuable consideration. But nothing in this definition shall be construed to prohibit the competition between amateurs for medals, cups, or other prizes than money. To prevent any misunderstanding in reading the above, the Association draws attention to the following explanations and adjudications :

An athlete has forfeited his right to compete as an amateur, and has thereby become a professional, by—

(a) Ever having competed in an open competition, *i. e.*, a competition the entries to which are open to all, irrespective as to whether the competitors are amateurs or professionals, and whether such competition be for a prize or not, in any athletic exercises, viz., base ball, rowing, cricket, etc.

(b) Ever having competed for money in any athletic exercise.

(c) Ever having competed under a false name in any athletic exercise.

(d) Ever having knowingly competed with a professional for a prize, or where gate money is charged, in any athletic exercise.

(e) Ever having taught or pursued as a means of livelihood any athletic exercise.

(f) Ever having directly or indirectly accepted or received remuneration for engaging in any athletic exercise.

An athlete shall hereafter forfeit his right to compete as an amateur, and shall thereby become a professional, if, at any time after the foregoing definition shall take effect, he shall—

(1) Directly or indirectly receive payment for training or coaching any other person in any athletic exercise.

(2) Directly or indirectly receive payment for services personally rendered in teaching any athletic exercise.

(3) Directly or indirectly receive payment for services rendered as Referee, Judge, Umpire, Scorer, Manager, Director, or in any other capacity at any professional exhibition or contest of any athletic exercise whatsoever.

NOTE.—Nothing herein shall be construed to prohibit the acceptance by any amateur of his necessary traveling expenses incurred as Referee, Judge, Umpire, Scorer, or Starter, in going to and from the place of any amateur contest.

(4) Directly or indirectly run, manage or direct, for prospective profit, any professional exhibition or contest.

An amateur shall not forfeit his right to compete as an amateur, and shall not become a professional, by—

(a) Receiving compensation for services rendered as ticket taker or ticket seller at any contest or exhibition of amateur athletics.

(b) Receiving compensation for services personally rendered as Secretary, Treasurer, Manager or Superintendent of any amateur athletic club.

(c) Receiving compensation as editor, correspondent or reporter of, or contributor to, any sporting, athletic or other paper or periodical.

(d) Running, managing or directing, for prospective profit, any sporting, athletic or other paper or periodical.

(e) Receiving compensation for services personally rendered as official handicapper, under the direction and authority of any amateur athletic association.

(f) Receiving from a club of which he shall be a member, the amount of his expenses necessarily incurred in traveling to and from the place of any amateur contest.

(g) Nothing in this rule shall be construed so as to consider a man a professional who has played on a college team against a professional team.

ARTICLE XVII

ELIGIBILITY FOR COMPETITION

(1) No one shall represent any college or university as a competitor

at any intercollegiate meeting who is not an amateur as set forth in Article XVI. of this Constitution.

(2) No one shall represent any college or university as a competitor at an intercollegiate meeting, who, after February 26, 1898, has attended any training-table without paying for his board, at that training-table, an amount equal to that which his board would have cost him had he not been at that training-table.

(3) No one shall represent any college or university as a competitor at an intercollegiate meeting who has not been a member of that college or university, in good and regular standing, from the 15th of the preceding October.

(4) If a student has represented a college in any intercollegiate track meeting in which two or more colleges have participated, and has won a first or second place in such meeting, he shall not be eligible to represent in the annual field meeting any other college he may attend until he has attended such college one full calendar year, and shall have attained in the annual examination upon his work given during that period, a satisfactory standard of scholarship.

(5) No one shall represent any college or university as a competitor at the annual field meeting, who, since the 26th day of February, 1898, has won a first, second or third place in any field or track event open to competitors from two or more organizations, until he shall have resided one calendar year at the college or university he represents, and shall have attained in the annual examinations on his work during that period a satisfactory standard of scholarship. This section, however, shall not apply to events restricted exclusively to competitors from colleges or preparatory schools.

(6) No one shall represent a college or university at the annual field meeting unless he shall be a student for a degree, or taking a special or partial course that requires an amount of preparation for admission, and of work after admission regarded by the college or university he represents as equivalent to the work required by a student for a degree.

(7) No one shall represent any college or university at the annual field meeting who has been expelled, suspended, or who has resigned while not in good standing, or dropped from his class

into a lower class, or from his first year class out of the college, or university, or who, not being in good standing in one department, has transferred to another, or has not passed entrance examinations equivalent to those required for admission into the academic or scientific department until he has completed one calendar year's work, and shall have attained in the annual examinations upon his work given during that period, a satisfactory standard of scholarship, or has been permitted by his college or university to regain the class or department from which he was expelled, suspended or dropped, or has transferred or resigned.

(a) In the event of a competitor's qualifications being questioned under Section 2, he shall furnish to the Executive Committee an affidavit from himself, stating he has complied in letter and spirit with Clause 2 of Article XVII. of this Constitution, and shall state in such affidavit the ordinary cost of the board, and the amount paid, as board, for his training-table. He shall also furnish from the person or persons to whom he has paid said board, an affidavit setting forth the amount paid to and received by him (or them), as board, from the protested competitor, or such other evidence as shall be satisfactory to the Committee.

(b) In the event of a competitor's qualification being questioned under Section 3, 6 or 7, he shall furnish to the Executive Committee a certificate signed by the Dean of his department, stating that he is eligible under the provisions of said sections, and shall give such further evidence as the Committee shall deem necessary to establish his right to compete.

(c) In the event of a competitor's qualification being questioned under Section 4 or 5, he shall furnish the Executive Committee a statement specifically denying the charges made against him over his signature, and shall give such further evidence as the Committee shall deem necessary to establish his right to compete.

(d) Findings of the Executive Committee under Article XVII, when the question to be determined is in regard to the scholastic standing only of the protested competitor may be appealed to the Faculty Committee whose decision shall be final.

ARTICLE XVIII

TIMES OF COMPETITION.

A student shall be allowed to compete at the Intercollegiate Meeting four times and no more, no matter whether he changes from one college and goes to another or not. This applies to all departments, viz., Medical, Law, Academical, etc. It shall be understood that a student may compete two years in one department or college and then go to another department or college and compete the remaining two, but in no event shall a student compete more than four times.

ARTICLE XIX

PENALTIES

Any violation in letter or spirit of the rules of the Association shall render a member, or competitor, liable to suspension by the Executive Committee until the next meeting of the Association, and to suspension or expulsion by a two-thirds vote of the colleges represented at such meeting.

ARTICLE XX

GAME OFFICIALS

The Starter of the games shall be a professional.

XVII

KEEPING PROPER COURSE

In all races on a straight track each competitor shall keep his own position on the course from start to finish. In the 100 and 220 yards dashes, courses for contestants shall be marked out by stakes protruding 18 inches from the ground, and connected at the top by a cord or wire plainly marked.

XVIII

CHANGE OF COURSE

In all races other than on a straight track, a competitor may change toward the inside whenever he is two strides ahead of the man whose path he crosses.

XIX

FOULING

Any competitor may be disqualified by the referee for jostling, running across, or in any way impeding another.

XX

FINISH

The finish line shall be a line on the ground drawn across the track from finish post to finish post, and the men shall be placed in the order in which they completely cross this line. For the purpose of aiding the judges, but not as the finish line, a thread shall be stretched across the track at the finish, 4 feet above the ground; it shall not be held by the judges, but fastened to the finish posts on either side so that it may always be at right angles to the course and parallel to the ground; this thread should be "breasted" by the competitor or competitors in finishing and not seized with the hands.

XXI

WALKING

The judge shall caution for any unfair walking, and the third caution shall disqualify the offender. On the last one-eighth (220 yards) of a mile, an unfair walker shall be disqualified without previous caution.

XXII

HURDLES

120 yards hurdle race shall be over ten hurdles, each 3 feet 6 inches high. The first hurdle shall be placed 15 yards from the scratch, and there shall be 10 yards between each hurdle. 220 yards hurdle race shall be over ten hurdles, each 2 feet 6 inches high. The first hurdle shall be placed 20 yards from the scratch, and there shall be 20 yards between each hurdle. Hurdle races of different number and height of hurdles may be given. No record shall be made in a hurdle race unless each of the hurdles, at the time the competitor jumps the same, is standing.

XXIII

JUMPING

No weights or artificial aid will be allowed in any jumping contest except by special agreement or announcement. When weights are allowed, there shall be no restrictions as to size, shape or material.

XXIV

RUNNING HIGH JUMP AND POLE-VAULT

The height of the bar at starting and at each successive elevation shall be determined by the measurers. Three tries allowed at each height. Each competitor shall make one attempt in the order of his name on the programme; then those who have failed (if any) shall have a second trial in regular order, and those failing on this trial shall take their final trial. A competitor may omit his trials at any height, but if he fail at the next height he shall not be allowed to go back and try the height he omitted. Each competitor shall be credited with the best of all his jumps or vaults.

High Jump—A line shall be drawn 3 feet in front of the bar and

parallel therewith, and stepping over such line, to be known as the balk line, in any attempt, shall count as a balk. Three balks shall count as a "try." Displacing the bar shall count as a "try."

Pole Vault—A line shall be drawn 15 feet in front of the pole and parallel therewith, and stepping over such line, to be known as the balk line, in any attempt, shall count as a balk. Two balks count as a "try." Displacing the bar or leaving the ground in an attempt shall count as a "try." The poles shall be unlimited as to size and weight, but shall have no assisting devices, except that they may be wound or wrapped with any substance for the purpose of affording a firmer grasp, and may have one prong at the lower end.

No competitor shall, during his vault, raise the hand which was uppermost when he left the ground to a higher point of the pole, nor shall he raise the hand which was undermost when he left the ground to any point on the pole above the other hand.

Any competitor who uses a pole without a spike shall be allowed to dig a hole not more than 1 foot in diameter at the take-off in which to plant his pole.

XXV

RUNNING BROAD JUMP

The competitors shall have unlimited run, but must take off from or behind the scratch. The scratch line shall be a joist 5 inches wide, the ground in front of which shall be removed to the depth of 3 and the width of 6 inches. Stepping over the scratch in an attempt shall be no jump, but shall count as a "try." Each competitor shall be allowed three trials, and the best four men shall have three more trials each. Each competitor shall be credited with the best of all his jumps. The measurement shall be from the outer edge of the joist to the nearest break of the ground made by any part of his person. A line shall be drawn 6 feet in front of the scratch line, and stepping over such line in an attempt shall count as a balk; three balks count as a "try."

XXVI

PUTTING THE SHOT

The shot shall be a metal sphere weighing 16 pounds. It shall be put from the shoulder with one hand, and during the attempt it shall not pass behind nor below the shoulder. It shall be put from a circle

7 feet in diameter, 4 feet of whose circumference shall be a toe board, 4 inches in height. Foul puts, which shall not be measured, but which shall count as puts, are as follows :

1. Letting go of the shot in an attempt.
2. Touching the ground outside the circle with any portion of the body while the shot is in hand.
3. Touching the ground forward of the front half of the circle with any portion of the body before the put is measured.

Each competitor shall be allowed three puts, and the best four men shall each be allowed three more puts. Each competitor shall be credited with the best of all his puts. The measurement of the put shall be from the nearest edge of the first mark made by the shot to the point of the circumference of the circle nearest such mark.

XXVII

THROWING THE HAMMER

The hammer head shall be a metal sphere. The handle may be of any material, and the combined length of the head and handle shall not be more than 4 feet, and the combined weight shall not be less than 16 pounds.

The hammer shall be thrown from a circle 7 feet in diameter. In making an attempt a competitor may assume any position he pleases. Foul throws, which shall not be measured but which shall count as throws, are as follows :

1. Letting go of the hammer in an attempt.
2. Touching the ground outside the circle with any portion of the body while the hammer is in hand.
3. Touching the ground forward of the front half of the circle with any portion of the body before the throw is measured.

Each competitor shall be allowed three throws, and the best four men shall each be allowed three more throws. Each competitor shall be credited with the best of all his throws. The measurement of the throw shall be from the nearest edge of the first mark made by the head of the hammer to the point of the circumference of the circle nearest such mark.

XXVIII

Associate clubs shall have entire charge of the entries of their own members in athletic meetings, provided, always, that no member shall enter, compete or take part in any event at any athletic meeting, the entries to which event shall not be limited to amateur athletics. This rule, however, shall not prevent this Association or its Executive Committee from prohibiting entries to any event or events.

XXIX

In all classes of limit events competitors shall not be debarred by reason of having made a better record after the closing of entries for such event.

XXX

All cases of dispute and any question that may arise not provided for in these laws, and in the interpretation of these laws, shall be referred to the Executive Committee of the Association.

XXXI

An Intercollegiate record is any record acceptable to the Association, made at the annual meeting of the I.C.A.A.A.A.

A Collegiate record is any record acceptable to the Association made at any meet held by a member of the I.C.A.A.A.A.

All such records shall be accepted either by the Association or by its Executive Committee, and any record accepted shall always be subject to such action as the Association may at any time take thereon.

The I.C.A.A.A.A. shall keep a list of all Intercollegiate records, and another of all Collegiate records.

No. 227—How to Play Third Base.

Third base is, in some respects, the most important of the infield. No major league team has ever won a pennant without a great third baseman. No. 232—How to Run the Bases.

The importance of base running as a scientific feature of the national game is becoming more and more recognized each year. Besides being spectacular, feats of base stealing nearly always figure in the winning of a game. Many a close contest is decided on the winning of that little strip of 90 feet which lies between cushions. When hits are few and the enemy's pitchers steady, it becomes incumbent on the opposing team to get around the bases in some manner. Effective stealing not only increases the effectiveness of the team by advancing its runners without wasting hits, but it serves to materially disconcert the enemy and frequently has caused an entire opposing club to temporarily lose its poise and throw away the game. This book gives clear and concise directions for excelling as a base runner; tells when to run and when not to do so; how and when to slide; team work on the bases; in fact, every point of the game is thoroughly explained. Illustrated with pictures of leading players. Price 10 cents.

== OFFICIAL ==

IN all athletic contests the implements and apparatus must conform to the official rules as laid down by the governing bodies of the various sports, the object being to enable all contestants to compete under uniform conditions and with the same kind of an implement, for a record in any sport will not be allowed unless the official implement is used. That is why Spalding implements are always selected, because they never vary in weight or measurement, but invariably conform to the rules.
